INTERNSHIPS

Summer Intern
All Risks Ltd.

After a week of training and orientation, spend time rotating through production teams at one of the host branches located throughout the U.S. During this time interns will log submissions, quote and bind renewal and new submissions, visit client agents with producers, attend carrier meetings, work on specifically assigned projects, work on policy maintenance activities, and potentially work on a project to

be delivered to a group of local managers and staff. We consider this to be a 7 week job interview for rising seniors who are interested in a wholesale surplus lines sales and underwriting role.
