Spring 2026 MAF Scholarship

Objective: The objective of the scholarship is to further students' interest in the property & casualty actuarial profession and to encourage the pursuit of the CAS designations.

Amount of Scholarship: Scholarships are awarded based on individual merit. The MAF Scholarship Program will award up to four scholarships to deserving students for the 2025-2026 academic year. Award winners will receive a \$2,500 scholarship.

Eligibility – You must meet all requirements to be considered:

- Submit all sections of the MAF Scholarship application by February 27, 2026
 - Incomplete applications will be disqualified without any consideration to partial information received
- Full-time student attending a U.S. college or university
- Sat for at least one actuarial exam by January of 2026
- Be a member of CAS Student Central (Join here for free: <https://www.casstudentcentral.org/>)
- Applicants should demonstrate high scholastic achievement and strong mathematical aptitude, communication skills, and interest in the casualty actuarial profession
- Preference will be given to residents or those attending schools in one of the Midwest States (Illinois, Indiana, Iowa, Michigan, Minnesota, Ohio, or Wisconsin)
- Preference will be given to students who have not received a MAF Scholarship in previous semesters

Optional Letter of Recommendation: One letter of recommendation may be included along with this application, preferably completed by internship supervisors, instructors and/or advisors at your educational institution who know you well. However, this is not required.

**Completed applications are due by February 27, 2026.
You will be notified of award decisions by March 6, 2026.**

Legal system abuse (i.e., social inflation) presents significant challenges to the property & casualty insurance industry. Discuss the impacts of legal system abuse on the property & casualty industry, as well as impacts on policyholders and society as a whole. Propose strategies that insurers, regulators, or other stakeholders can implement to reduce its impact, as well as strategies that actuaries can implement in their reserving and pricing analyses to account for the increased uncertainty and risk.
